**NCLGS MOVES FORWARD ON JUNE 6 WITH POLICY FRAMEWORK FOR
INTERNET GAMING, WEIGHS NEW ROUND OF COMMENTS**

Coconut Creek, Florida, June 3, 2014—The National Council of Legislators from Gaming States (NCLGS) today took the next step in developing a groundbreaking draft *Policy Framework for the Regulation of Internet Gaming*—releasing a new round of comments for special June 6 review at the NCLGS Summer Meeting. The latest interested-party suggestions respond to a first formal release of the draft of the proposed *Framework*, vetted in May.

NCLGS President Rep. Jim Waldman (FL) said:

The draft *Framework* could profoundly impact the future of Internet gaming in this country and is a critical opportunity for NCLGS—working with regulator, industry, and other experts—to offer practical guidance for legislators considering whether iGaming is right for their states. The first draft of our *Framework* is a strong foundation for considering possible enhancements, such as those offered recently by interested parties, and I look forward to our first in-person discussion of the document on June 6.

NCLGS—recognizing the threats, as well as the possibilities, involved in new technology and Internet gaming—is developing the draft *Framework* to ensure that an effective system is in place for states that allow intrastate Internet gaming and that policy standards are in place to protect citizens in both states wishing to allow iGaming and those that don't, and to promote security and uniformity in those who want to form interstate Internet compacts.

The proposed *Framework* addresses key issues, including player protections; payment processing; problem gambling protections; age verification, geo-location, and player identification; taxation; regulatory authority; licensing; multi-jurisdictional agreements; enforcement; and game choice and legality, among other items.

The [draft](#)—as well as initial and recently received [interested-party comments](#)—is available at www.nclgs.org. Groups that weighed in recently included:

- Alderney Gambling Control Commission (AGCC)
- Netsweeper Inc.
- North American Assoc. of State & Provincial Lotteries (NASPL)
- Poker Innovations Ltd.
- UC Gaming

The NCLGS Summer Meeting will take place from June 6 to 8 at the Hyatt Regency La Jolla in San Diego, California. The State-Federal Relations Committee will consider the draft *Policy Framework* on Friday, June 6, during the Committee's 3:30 p.m. to 5:30 p.m. meeting.

NCLGS is the only non-partisan organization of state lawmakers that meets on a regular basis to discuss issues in regard to gaming. NCLGS does not support or oppose gaming, but supports effective regulation and believes that decisions related to gaming should be made by the citizens of the individual states and their elected officials. More information is available at www.nclgs.org.
